## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to a method of treatment of dry eye using a compound that promotes neuron regeneration or neurite outgrowth, classified in class 514, subclass 263.
- II. Claims 7-12, drawn to a method of decreasing corneal sensitivity resulting from injury to cornea using a compound that promotes neuron regeneration or neurite outgrowth, classified in class 514, subclass 263.
- III. Claims 13-18, drawn to a method for treatment of injury to corneal nerve using a compound that promotes neuron regeneration or neurite outgrowth, classified in class 514, subclass 263.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group 1 and Groups II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different effects. One group is used for treating dry eye, one is used for the treatment of corneal sensitivity and the third Group the treatment of corneal injury.

Art Unit: 1618

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Note: Applicant is requested to elect a single compound with the election of any of the above groups.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
